

Name: _____
Campus: _____

DOB: _____
Grade: _____

Student ID#: _____
Date: _____

Dear Parent/Guardian,

In reviewing all of the health records, I find that your child needs the immunization checked below in order to be fully protected and to comply with Birdville ISD policy and the State of Texas Immunization Laws.

Diphtheria/Tetanus (Td) (booster must be received after 4th birthday and every 10 year); BISD policy now mandates that all 9th graders, upon enrollment, must have received both measles immunizations and their Td/Tdap booster (called the “10-yr. booster”) if due by graduation.
Last dose was _____

BISD requires this shot before enrolling in the 9th grade. Your child will not be allowed to enroll without a Td/Tdap booster. If you received this notice they do not have a booster on file.

See the attached sheet for a list of low cost events where you can get your shot.

This immunization must be received by _____ in order to remain in school. We know you will be prompt to take care of this matter. Please have your doctor date and sign this form or send us an up-to-date shot record. Immunizations may be obtained from your private doctor or from locations below for a maximum charge of \$20.

Tarrant County Health Department 813 Brown Trail Bedford, TX 817-285-4155	Hours: Monday – Thursday 7am-12 pm and 2pm-5pm. Friday – 8am-12pm and 2pm-4pm Note: On the 2 nd Wednesday of each month, the clinic is open from 1pm-5pm ONLY. Call before coming.
