This handbook is designed to serve as a guideline for the Birdville ISD Coaches. We hope that it will help you throughout the school year and the season that pertains to your coaching position. Please call the Athletic Office at any time if you have a question or concern (817-547-5820).

The University Interscholastic League is the governing body for the athletic programs in the Texas Public Schools. Our programs will fully support and enforce the rules set forth by the U.I.L.

As a Department, BISD Athletics exists to compliment the education of each individual that comes into contact with our programs. We strive to help each student-athlete develop and become the best that they can be at whichever sport they choose. However, not all students are capable of competing in certain programs. One of the most difficult tasks facing a coach is making the judgment as to who should be selected to compete in each program. Students are not obligated or required to participate in athletics. It should always be stressed that being a member of an athletic program is a privilege and not a right. Because it is a privilege, the coaches have the authority to revoke this privilege when rules are not followed.

Two of the best things that one can learn through an athletic contest are to deal with success and overcome adversity. Winning is the admirable goal of competition, but it is nothing if it comes at the expense of morals, ethics, and common sense. This is where we can teach those in our program how to succeed in a future they create, especially by showing good sportsmanship.

Being involved in athletics demands a lot of time and dedication from coaches and players alike. A coach must always remember that the student-athletes reflect your attitudes, beliefs, and work ethic. By demonstrating discipline, responsibility, and a strong work ethic, your programs will also display these traits. Develop these traits in the student-athletes in your program, and you will develop a program of which our entire community can be proud!

GUIDELINES AND RULES

ATHLETIC PHILOSOPHY

Win, lose, or draw, there are great values in educational competition. The pitting of one's skills, knowledge, and talent against friendly opponents is a means of learning one's own strengths and weaknesses. Good contests, properly supervised, give youthful competitors the opportunity to gain self-confidence, improve skill, and learn to win with humility and lose with grace.

When we strive honestly to improve ourselves by measuring our progress against our friends, we are raising our knowledge to the limits of our abilities. By pitting our efforts against others, we learn how we stand, and we know what we must do to improve. The self-discipline and sacrifice involved in competition are keys to those same values that will be of great benefit to everyone in life. In the best of competition there are no losers.

Athletic participation is a privilege, not a right.

ONLINE LEARNERS

In Birdville ISD, online/remote learners will be allowed to participate in Extra-curricular activities for the 2020-2021 school year. Transportation to and from practice and activities will be the responsibility of the student and their parent/guardian.

GOALS OF INTERSCHOOL ATHLETICS

For the program to be a vital part of the educational program and to insure the achievement of aims for the player, the student body, and the community, the following philosophical goals of athletics were developed:

1. Athletics must be for all students who are physically able to participate.
2. Athletics must (a) be educational, (b) contain desirable authorities, both local and state, and (c) have leadership by regular members of the school staff.
3. Athletic participation should contribute to (a) health and social competence, (b) moral values, (c) a sense of cooperation, (d) self-discipline, (e) a spirit of competition, and (f) a realization of values of group goals.
4. School athletics should be an educational force of great magnitude and should be used as such. A concerted effort should be made to capitalize on all the potential values of school athletics.
5. Judgment of the ability of an athlete should be based on what the participant can do, and not on who the athlete is socially, ethnically, or economically.
6. Athletic contests should always be played with emphasis on fun, physical development, skills, social experience, and good sportsmanship.

Therefore, we reaffirm that students are the focus of our endeavor and deserve an opportunity to:

2020-2021 EXTRACURRICULAR HONOR CODE

Extracurricular Honor Code

Participation in extracurricular activities in the Birdville Independent School District is a privilege, not a right. The term “extracurricular activities” means, without limitation, all interscholastic athletics, cheerleading, drill team, academic clubs, special interest clubs, musical performances, dramatic productions, student government, and any other activity or group that participates in contests, competitions, or community service projects on behalf of or as a representative of Birdville ISD. The term includes any non-curricular event and membership or participation in groups, clubs, and organizations recognized and approved by the school district or campus. All extracurricular activity participants are subject to the provisions of this Extracurricular Honor Code.

Jurisdiction

Student participation in extracurricular activities is encouraged. Birdville ISD makes extracurricular activities available as an extension of the regular school program, with this important difference; participation in the regular curriculum is a right afforded to each student, while participation in the extracurricular program is a privilege that carries additional expectations for acceptable conduct. Students engaging in extracurricular activities represent not only themselves, but also other students and the school district when performing, competing, or participating in extracurricular activities and while wearing uniforms or other clothing that identifies the student to the community or public in any setting as Birdville ISD students.

Important goals of the extracurricular program are to give students direction in developing self-discipline, responsibility, pride, loyalty, leadership, teamwork, respect for authority, and healthy living habits.

Based on this philosophy, extracurricular participants must do the following at all times:

- Demonstrate the importance of academic excellence by maintaining eligibility through high academic standards.
- Practice good citizenship in all environments by respecting the property and rights of others.
- Be free from activities that result in felonious charges.
- Demonstrate knowledge of and be accountable for the individual rules of the extracurricular organization as outlined by the sponsor.

It is the responsibility of students, parents, sponsors/coaches, and the respective directors to ensure this high level of expectation. This code applies to all participants of extracurricular activities throughout the calendar year.

On Campus Behavior

All students are expected to adhere to the Birdville ISD Code of Conduct as it applies to school-related activities. Students involved in extracurricular activities are expected to exhibit the highest standards of ethics and conduct.

Students who violate school policies and are placed in in-school suspension (until the ISS is concluded), suspended, or sent to the DAEP (District Alternative Education Program), may not practice nor participate during the suspension or placement. Chapter 37 of the Texas Education Code prohibits a student who is assigned to the DAEP from being on a campus or attending a school activity whether on or off campus.

Off Campus Behavior

All students who participate in extracurricular activities are expected to exhibit the highest standards of ethics and conduct while off-campus, and these students may be disciplined for their off campus behavior.

Examples of off-campus violations that may lead to disciplinary action:

- Possession of tobacco, e-cigarettes, alcohol, steroids, drugs, look-alike drugs, or other illegal substances on campus or at school-sponsored activities
- Being at parties or other activities where tobacco, alcohol, steroids, drugs, look-alike drugs, or other illegal substances are present or being consumed by other individuals
- Engaging in serious misbehavior, as defined by the Birdville ISD Student Code of Conduct
- Conduct that causes injury or harm to others property or persons
- Using profanity, lewd or vulgar language, or obscene gestures toward others
- Any conduct that results in an arrest
- Sexting or other inappropriate Internet/electronic communications
- Bullying, harassment, and hazing at all times

(This is a non-inclusive list and must be confirmed by the student, student's parent/guardian, law enforcement official or a school employee who has knowledge of a violation prior to the campus administration making a decision.)

Off Campus Consequences

1st Offense – Suspension from extracurricular activities for 15 school days

2nd Offense – Suspension from extracurricular activities for 30 school days

3rd Offense – Suspension from extracurricular activities for a calendar year.

If the offense occurs during the activity season, the suspension begins immediately.

If the student chooses to join a new activity that they have not participated in previously, they will be suspended in the student's primary activity.

If the offense occurs in the off-season, post-season or in the summer, the suspension begins on the first date of a scheduled game, competition, or extracurricular event the following school year. Students, who are suspended for off-campus behavior may practice but may not participate in competitions, suit-out, or travel with the team for the competitions.

Non-Inclusive Example of Disciplinary Consequences for Off-Campus

1st Offense incident that occurred on March 15:

	PARTICIPANT	DISCIPLINARY CONSEQUENCE
Student 1	Fall Sport	15 day suspension begins date of the first competition
Student 2	Spring Sport	15 day suspension begins immediately if competition has begun
Student 3	Band Student	15 day suspension begins immediately if any competitions remain, if concluded, it will begin on first football competition
Student 4	Cheerleader/Drill Team	Student may still try-out for cheerleader/drill team and 15 day suspension begins on date of first football competition
Student 5	Student Council Member	15 day suspension begins immediately
Student 6	FFA Student	15 day suspension begins the date of the next show
Student 7	Spring Sport	Student is a softball player and has been for 2 years. In October they violate the honor code. Student goes to the Wrestling Coach and request to join team to avoid getting suspended from softball. 15 day suspension begins the date of the first softball game due to avoidance of missing primary sport.

The preceding table provides examples; but the campus principal, executive director of student services, and appropriate director may adjust the dates in order to ensure district-wide consistency (based on a consensus of the group). A student who is in multiple activities will serve the penalty once and at the earliest possible time.

Appeal Process

The parent or guardian may appeal the extracurricular suspension using the format in the Code of Conduct Booklet (DAEP placements).

- I. Level I – The parents have three days to appeal the suspension to the campus principal.

2. Level II – The parents have three days from the principal's decision to send an appeal to the Director of Student Services.

Any decision by the Level II Hearing Officer/Panel is final and may not be appealed. The student remains suspended from extracurricular activities during the appeal process

HEAT GUIDELINES

The following are precautionary guidelines for coaches and trainers to follow in the prevention of heat related illnesses and emergencies. These guidelines should be strictly followed.

- Gradually Acclimatize Athletes – Start slowly, and take your time getting the student/athletes “back in shape”. Athletes often return to school having lost the aerobic capacity they may have had at the close of last season.
- Ensure that your athletes drink fluids even before they feel thirsty Always urge athletes to drink water before, during, and after physical activity. They should have unlimited access to cold water. Do not restrict water as a form of motivation.
- Identify Susceptible Athletes – Those athletes who are obese or have a larger muscle mass tend to have more heat related problems. Keep a close eye on these athletes.
- Encourage a Good Diet – Athletes must eat breakfast and lunch to practice in extreme heat.
- Uniforms – Use lightweight workout clothing in hot weather months. Be aware of athletes wearing unnecessary extra clothing.

The Temperature-Humidity Index (THI) is a measurement of ambient temperature and relative humidity. A sling or digital psychrometer measures both to give a THI reading. The Athletic Department will take necessary steps to ensure each of the ten campuses has a tool for measuring the temperature and relative humidity.

Please use the attached chart for the determination of suspension or modification of practice sessions.

Temperature is between 90-99 and/or a heat index below 109

Football – Athletes will receive a 5-minute break every 30 minutes with water available. Athletes should be closely monitored. Helmets will be allowed to be removed during breaks or instructional non-contact drills.

Cross Country/Track – Athletes will receive a 5-minute break every 30 minutes with water available. Athletes are to be monitored closely

LIGHTNING GUIDELINES

On average, lightning causes more casualties annually in the U.S. than any other storm-related phenomena, except floods. Many people incur injuries or are killed due to misinformation and inappropriate behavior during thunderstorms.

The Flash to Bang method of estimating the distance between you and a lightning flash is most accurate. It is the most reliable, easiest way to estimate how far away lightning is occurring. Thunder always accompanies lightning; therefore, the flash to bang method works like this:

- Count the number of seconds, once lightning flash is sighted, until the thunder (bang) is heard – divide by 5 to obtain how far away (in miles) the lightning is occurring. For example: if an individual counts 15 seconds between seeing the flash and hearing the bang, 15 divided by five equals three; therefore, the lightning flash is approximately three miles away. The SkyScan lightning detector will be used as an aid to the “Flash to Bang” method – the SkyScan detects strikes that are sky to ground, not cloud to cloud.

The “30-30” Rule

Criteria for Suspension of Activities - By the time the “Flash to Bang” count approaches 30 seconds, all individuals should be inside a safe shelter.

Criteria for Resumption of Activities – Wait at least 30 minutes after the last sound (thunder) or observation of lightning before leaving safe shelter.

Unsafe Shelter

- Metal or wooden bleachers
- Underneath bleachers
- High places and open fields
- Underneath trees
- Dugouts, flagpoles, metal fences

Safe Shelter

- Any building normally occupied or frequently used by people
- Any vehicle with a hard metal roof (not a convertible) and rolled up windows
- School bus
- 20-40 miles – Awareness of lightning; monitor its progress
- 8-20 miles – Monitor closely
- 3-8 miles – Remove athletes from field; play should not resume until 30 minutes have passed without a strike within this range or closer.

Facts Regarding the Awesome Nature of Lightning

- Bolts of lightning reach heat as high as 50,000 degrees.
- There are 16 million thunderstorms per year in the world.
- One half of all lightning bolts divide into two or more bolts.
- A lightning bolt can strike in one million of a second.
- Annually in the United States about 100,000 thunderstorms occur.
- Ten percent of all thunderstorms are capable of producing tornadoes, high winds, and flash floods.
- The average thunderstorm is six to ten miles wide.
- The average rate of travel for a thunderstorm is 25 miles per hour.
- The average lightning strike is six miles long.
- A lightning bolt is incredibly powerful, carrying up to 30 million volts at 100,000 amps.
- Two hundred deaths and 700 injuries are caused annually in the United States by thunderstorms.
- Lightning causes an estimated 5 to 6 billion dollars in direct or indirect property damages each year.
- Florida is the state with the highest rate of incident.

ATHLETIC POLICY CONCERNING INFECTIOUS DISEASES TRANSMITTED THROUGH BLOOD AND BODY FLUIDS

INTRODUCTION:

The transmission of infectious diseases through blood and bodily fluids includes the HIV and Hepatitis B and D viruses. Through participation in athletics and the treatment of athletic injuries, participants, trainers, and coaches are involved with and introduced to contact with blood and body fluids. The Hepatitis B illness accounts for more than 10,000 hospital admissions a year. It is also the ninth leading cause of death worldwide. More than 200 million people are chronic carriers of the Hepatitis B virus. The Hepatitis B virus is often linked to HIV, the virus that causes AIDS. The Hepatitis B virus is far more widespread throughout the world and is 300 times more contagious than HIV. It is estimated that 5,000 people worldwide are infected daily with the HIV virus.

PLAN OF ACTION:

It is imperative that procedures for properly discarding body fluids during athletic contests be followed specifically and completely. If a player vomits or secretes any body fluids such as blood due to injury onto the playing surface, it is the responsibility of the coach to recognize this situation and stop play.

The following steps should take place:

1. The coach should approach the officials and explain the situation.
2. The coach should then alert a custodian and make sure correct procedures are followed in disposal of the body fluids. Our custodians are trained to correctly dispose of the fluids.
3. The administrator on duty at the time of the incident should also be notified in order to help secure custodial help.

CARING FOR PARTICIPANTS (PATIENTS):

1. All trainers and coaches should routinely use appropriate barrier precautions to prevent skin and mucous membrane exposure when contact with blood/body fluids of any patients is anticipated. Gloves should be worn for touching blood/body fluids, mucous membranes, or non-contact skin of all patients, for handling items or surfaces soiled with blood or body fluids. Vomit is considered a body fluid. Gloves should be changed after contact with each patient. Masks and protective eye or face shields should be worn by all trainers during procedures that are likely to generate droplets of blood or other body fluids to prevent exposure of mucous membranes of the mouth, nose, and eyes. Gowns and aprons should be worn by all trainers during procedures that are likely to generate splashes of blood or other body fluids.

2. Hand and other skin surfaces should be washed immediately and thoroughly if contaminated with blood or body fluids. Hands should be washed immediately after gloves are removed.

3. Instruments used for treating open wounds must be cleaned and disinfected before and after use.

4. Although saliva has not been implicated in HIV transmission, to minimize the need for emergency mouth-to-mouth resuscitation, mouthpieces, resuscitation bags, or other ventilation devices should be available for use in areas in which the need for resuscitation is predictable.

5. Trainers and coaches who have open sores/wounds or weeping dermatitis should refrain from all direct patient care and from handling patient care equipment until the condition resolves.

6. Pregnant coaches are not known to be a greater risk of contracting HIV infection than coaches who are not pregnant; however, if a coach develops HIV infection during pregnancy, the infant is at risk of infection resulting from prenatal transmission. Because of this risk, coaches should be especially familiar with and strictly adhere to precautions to minimize the risk of HIV transmission.

CARING FOR EQUIPMENT/CLOTHING:

1. Gloves and other materials used for direct contact with blood/body fluids should be put in a plastic bag or lined trashcan. Plastic bags should be changed daily and disposed of routinely. Double bagging can be used when there is a high risk of contamination.

2. Clothing items that are soaked through to the skin should be removed and placed in a separate container for laundering. Items laundered for school use should be washed with detergent in hot water cycle (160°F) before using. If low temperature (158°F) laundry cycles are used, chemicals suitable for low temperature washing at proper use concentration should be used. Uniforms with blood should be separated and washed separately. Anyone handling soiled equipment should wear protective gloves.

3. Contaminated disposable items (tissues, paper towels) should be handled with rubber gloves.

4. Maintenance responsibilities should include daily cleaning with bleach/germicide as in (a) particularly areas where contact with body fluids (such as locker rooms, locker room toilets, sinks, student and staff lockers, etc.) is likely. Plastic bags should also be changed daily and disposed of routinely; rubber gloves should be worn.

5. Various classes of disinfectants are listed: (hypo chlorite solution (bleach) is preferred for objects that may be put in the mouth.)

a. Ethyl or isopropyl alcohol (70%) should be used on all materials or goods such as uniforms, etc:

b. Lysol

c. 1/2 cup household bleach in one gallon of water, needing to be freshly prepared each time it is used, should be used on all hard surfaces such as tables, counter, shoulder pads, helmets, etc.

- Give any instruction or schedule any practice for an individual or a team during the off-season except during the one in school day athletic period in baseball, basketball, football, soccer, softball, or volleyball
- Schools and school booster clubs may not provide funds, fees, or transportation for non-school activities.

GENERAL ELIGIBILITY RULES

According to UIL standards, students could be eligible to represent their school in interscholastic activities if they:

- are not 19 years of age or older on or before September 1 of the current scholastic year. (See Section 446 of the Constitution and Contest Rules for exception).
- have not graduated from high school.
- are enrolled by the sixth class day of the current school year or have been in attendance for fifteen calendar days immediately preceding a varsity contest.
- are full-time students in the participant high school they wish to represent.
- initially enrolled in the ninth grade not more than four years ago.
- are meeting academic standards required by state law.
- live with their parents inside the school district attendance zone their first year of attendance. (Parent residence applies to varsity athletic eligibility only.) When the parents do not reside inside the district attendance zone the student could be eligible if: the student has been in continuous attendance for at least one calendar year and has not enrolled at another school; no inducement is given to the student to attend the school (for example: students or their parents must pay their room and board when they do not live with a relative; students driving back into the district should pay their own transportation costs); and it is not a violation of local school or TEA policies for the student to continue attending the school. Students placed by the Texas Youth Commission are covered under Custodial Residence (see Section 442 of the Constitution and Contest Rules).
- have observed all provisions of the Awards Rule.
- have not been recruited. (Does not apply to college recruiting as permitted by rule.)
- have not violated any provision of the summer camp rule. Incoming 10-12 grade students shall not attend a baseball, basketball, football, soccer, or volleyball camp in which a seventh through twelfth grade coach from their school district attendance zone, works with, instructs, transports or registers that student in the camp. Students who will be in grades 7, 8, and 9 may attend one baseball, one basketball, one football, one soccer, one softball, and one volleyball camp in which a coach from their school district attendance zone is employed, for no more than six consecutive days each summer in each type of sports camp. Baseball, Basketball, Football, Soccer, Softball, and Volleyball camps where school personnel work with their own students may be held in May, after the last day of school, June, July and August prior to the second Monday in August. If such camps are sponsored by school district personnel, they must be held within the boundaries of the school district and the superintendent or his designee shall approve the schedule of fees.
- have observed all provisions of the Athletic Amateur Rule. Students may not accept money or other valuable consideration (tangible or intangible property or service including anything that is usable, wearable, salable or consumable) for participating in any athletic sport during any part of the year. Athletes shall not receive valuable consideration for allowing their names to be used for the promotion of any product, plan or service. Students who inadvertently violate the amateur rule by accepting valuable consideration may regain athletic eligibility by returning the valuable consideration. If individuals return the valuable consideration within 30 days after they are informed of the rule violation, they regain their athletic eligibility when they return it. If they fail to return it within 30 days, they remain ineligible for one year from when they accepted it. During the period of time from when students receive valuable consideration until they return it, they are ineligible for varsity athletic competition in the sport in which the violation occurred. Minimum penalty for participating in a contest while ineligible is forfeiture of the contest.
- did not change schools for athletic purposes.

I understand that failure to provide accurate and truthful information on UIL forms could subject the student in question to penalties determined by the UIL.

I have read the regulations cited above and agree to follow the rules.

CONCUSSION ACKNOWLEDGEMENT FORM

Name of Student _____

Definition of Concussion - means a complex pathophysiological process affecting the brain caused by a traumatic physical force or impact to the head or body, which may: (A) include temporary or prolonged altered brain function resulting in physical, cognitive, or emotional symptoms or altered sleep patterns; and (B) involve loss of consciousness.

Prevention – Teach and practice safe play & proper technique.
– Follow the rules of play.
– Make sure the required protective equipment is worn for all practices and games.
– Protective equipment must fit properly and be inspected on a regular basis.

Signs and Symptoms of Concussion – The signs and symptoms of concussion may include but are not limited to: Head ache, appears to be dazed or stunned, tinnitus (ringing in the ears), fatigue, slurred speech, nausea or vomiting, dizziness, loss of balance, blurry vision, sensitive to light or noise, feel foggy or groggy, memory loss, or confusion.

Oversight - Each district shall appoint and approve a Concussion Oversight Team (COT). The COT shall include at least one physician and an athletic trainer if one is employed by the school district. Other members may include: Advanced Practice Nurse, neuropsychologist or a physician's assistant. The COT is charged with developing the Return to Play protocol based on peer reviewed scientific evidence.

Treatment of Concussion - The student-athlete shall be removed from practice or competition immediately if suspected to have sustained a concussion. Every student-athlete suspected of sustaining a concussion shall be seen by a physician before they may return to athletic participation. The treatment for concussion is rest. Also avoid external stimulation such as watching television, music, use of computer, and bright lights. When all signs and symptoms of concussion have cleared and the student has received written clearance from a physician, the student-athlete may begin their district's Return to Play protocol as determined by the Concussion Oversight Team.

Return to Play - According to the Texas Education Code, Section 38.157:

A student removed from an interscholastic athletics practice or competition under Section 38.156 may not be permitted to practice or compete again following the force or impact believed to have caused the concussion until:

- (1) the student has been evaluated, using established medical protocols based on peer-reviewed scientific evidence, by a treating physician chosen by the student or the student's parent or guardian or another person with legal authority to make medical decisions for the student;
- (2) the student has successfully completed each requirement of the return-to-play protocol established under Section 38.153 necessary for the student to return to play;

Academic Accommodation Recommendations

The following academic accommodations may help in reducing the cognitive (thinking) load, thereby minimizing post-concussion symptoms and allowing the student to better participate in the academic process during the injury period. Needed accommodations may vary by course. This information and recommendations are from the ImPACT[®] Concussion Testing Program being used by BISD.

Note taking: Allow student to obtain class notes or outlines ahead of time to aid organization and reduce multi-tasking demands. If this is not possible, allow the student photocopied notes from another student.

Note taking may be difficult due to impaired multitasking abilities and increased symptoms.

Workload Reduction: Reduce overall amount of make-up work, class work, and homework (we typically recommend 50-75%, though may vary by class), shorten tests and projects. Examples: reduce the length of essays, have student do every other problem in a homework assignment, or highlight key concept areas for testing while eliminating testing on less important topics.

It takes a concussed student much longer to complete assignments due to the increased memory problems and decreased speed of learning. Recovery can be delayed when a student “pushes through” symptoms. Therefore, it is recommended that “thinking” or cognitive load be reduced, just like physical exertion is reduced.

Breaks: Take breaks as needed to control symptom levels. Example: student may lay head on the desk to rest. For worse symptoms, the student may need to leave class and go to the nurse. The nurse will inform the Athletic Trainers. The student may also be allowed to call the training room directly from your class room if he or she has permission and you allow.

Extra time: Allow student to turn in assignments late

Students may experience severe symptoms some day/nights and not others. With increased symptoms, students are advised to rest, and therefore may need to turn in assignments late on occasion.

Testing: extra time to complete tests, testing in a quiet environment, allow testing in multiple sessions, reduce length of tests, and eliminate tests when possible

Students with concussions have increased memory and attention problems. They will not be able to learn as effectively or quickly as before. Furthermore, highly demanding activities like testing can significantly raise symptoms (e.g. headache, fatigue) which can in turn make testing more difficult.

If at any time you feel that the student is abusing their privileges please let one of the Coaches know immediately.

If the doctor prescribes specific accommodations from this list you will receive a copy.

Middle School Guidelines for “no cut” policy

We believe that all middle school athletes should have the opportunity to participate in athletics. We also believe that due to our physical and personnel resources, we must be creative when providing the opportunity. We also realize that some of you have large numbers in your programs; therefore, we would like to give you the following guidelines to ensure all athletes have an opportunity to participate:

- 1) Implement a rotating “B” team so that athletes have an opportunity to play in half of the scheduled games.
- 2) Implement a “C” or “D” team so that student athletes will have an opportunity to play in a competitive setting. (Coaches will officiate the games held prior to the “B” games. The games can be abbreviated)
- 3) Implement a game day once a week one day after practice for those students not on the “A” or “B” team. The games can occur on a non-game day and parents can attend.

As we work to engage and encourage all student-athletes, we believe the above-mentioned suggestions can help you in your unique situation. It is our job to develop young, inexperienced middle school athletes so that they can experience success as they move into high school athletics.

Thanks for your cooperation.

Sweet 16 Football Rules 2020

1. Each game shall be played according to applicable University Interscholastic League and National Federation football rules.
2. 7th and 8th grade Big 12 teams shall be organized with “A” being stronger than “B”. The “B” teams shall play first; the “A” teams shall play second unless changed by mutual agreement.
3. The first game of a double-header shall begin at 5:00pm.
Games on non-lighted fields: At the minimum, teams shall have a 5-minute warm-up. Games shall have a 5-minute halftime. There shall be no more than 5 minutes between games.
“A” teams are encouraged to warm-up during the 4th quarter of the “B” game.
Games on lighted fields: Teams shall have a 10-minute warm-up between games.
4. While on offense, teams may use their own approved football.
 - 7th grade: Junior ball or larger
 - 8th grade: Youth ball or larger
5. 7th and 8th grade “A” & “B” teams shall play 8-minute quarters with an 8-minute halftime.
6. For point after touchdown (PAT), One (1) point will be awarded for successful run or pass. Two (2) points will be awarded for successful kick.
7. No continuous clock shall be used unless changed by mutual agreement.
8. The home team shall wear dark/colored jerseys for the “A” game and white jerseys for the “B” game.
9. Games are official upon reaching halftime. If a game is suspended before reaching halftime and cannot be completed, it shall be recorded as a 0-0 tie.
10. The following system will be used to break ties in the final standings:
 1. Head-to-head
 - a. If team A defeated team B and team B defeated team C, but A and C did not play each other, move to tie-breaker #2.
 - b. In a 3-way (or more) tie, if team A defeated team B and team C, team A will be seeded higher than B and C even if B and C did not play each other.
 2. Total points allowed in district season
 3. Coin flip (two teams) or blind draw (three or more teams)
11. Admission of \$1 for students and \$2 for adults may be charged.
12. Officials’ pay forms shall be provided by the home team and turned in to the athletic office for payment.

FOOTBALL PROGRAM

FUNDAMENTALS

In order to have time to teach fundamentals, we recommend that coaching staffs be split on game days, so that two coaches are assigned game duties and two coaches are handling eighth grade workouts. All teams should have workouts four times a week. An example is as follows:

7th Grade Workouts:

- Monday - work on kicking game in the A.M., game in the afternoon
- Tuesday- 10 minutes for cal., 1 hour for defense, kicking game

RUNNING A TRACK MEET 2021

- I. **Track Equipment Bag** - may be checked out from the Athletic Office in good condition on Monday before the meet. Bag must be inventoried and signed for at check out and inventoried and initialed upon return.
- II. **Entry Forms** - send out two weeks prior to meet. Have a place for name, time/distance for each event. Have the entry returned at least three days prior to meet. Take entry sheets and assign lanes for each running event either according to times sent in or by an arbitrarily. Work up sheet showing each event, school, place for time, and results. You also make up field event meet sheets by just listing school, name, distance, height, and result. The field event can be listed by schools alphabetically or any other order you choose.
- III. **Workers** - you should have two score keepers and award workers, one starter, one back up starter, one heating clerk, one finish line clerk, six times, six pickers, ten hurdle setters, three block setters, two finish line string holders, and three workers at each field event (one clerk, two measure rakers, etc.). All workers should be at their station ten minutes before their scheduled time to begin to make sure all is in order - equipment, paper work and participants check in.
- IV. **Scratch Meeting** - 30 minutes prior to first event - allow each coach to scratch or replace any entry in any running event, pick up heat packages and be informed on order of events, time schedule, etc. Field event scratches should be made at the field event with clerk of each particular event. A district scratch meeting will be held prior to the district meet.
- V. **Field Events**- should be started at least 45 minutes before first running event to allow as many participants as possible to be able to compete in their field event before they have to run. Once the running events start while field events are still going on - the rule is that the participant goes to the running event in a reasonable time five to ten minutes). The field event clerk must use common sense in handling a participant who is also involved in a running event, but should never punish the participant by making them hurry their effort after they have been running another event or by disallowing the participant's final effort(s).
 - A. ***Shot Put** - three workers (one clerk, one marking in the field, and one measuring in the ring). Clerk goes over rules:
 1. Enter and exit back of ring.
 2. Cannot step over toe board or line after throwing.
 3. Must keep shot put in bend of neck - shoulder area.
 4. Must be a push, not a bent arm throw, and check shots making sure all are the same size (weight) - clerk informs participants of throwing order - calls first contestant and telling who is next - watches the contestant put the shot - if NO FOUL, say "MARK" - measure throw from inside of the toe board stretching tape from center of circle to the back divot where the shot landed. Call next contestant - repeats until all contestants have thrown three times. Each contestant is allowed three throws; they may take them in any order. When all contestants have thrown, figure best six places and turn in result sheet to awards clerk in press box.

Note: It is the more acceptable practice to measure each of the three throws than to put out stakes, but if you do put out stakes, you need only to put out the best eight throws.

- B. ***Discus** - three workers (one clerk; one marking infield; one measuring in the rings) - clerk goes over rules:
 1. Enter and exit back of ring.
 2. Clerk goes over throwing order - boundaries of discus field and checks the discus of each contestant to make sure they are the same size - call first contestant, measure throw - repeat until all have thrown three times, measuring to the nearest inch. Figure top six places and turn in to awards clerk in press box. Once again, each contestant gets three throws; they may take them in any order. It is more acceptable to measure each throw although stakes may be used.

- C. ***Long Jump** - three workers (one clerk; one raker; one tape-holder). Clerk has contestants check in; goes over jumping order; makes sure jumping board is swept clean; calls first contestant; watches where his/her foot hits on the board; calls "MARK" or "FOUL" according to where foot hits; measure from front of board to furthest back mark in the sand of where contestant landed. Each contestant is allowed three jumps; they may take them in any order. If all jumpers are present, it is most acceptable to jump one at a time until all have jumped going around three times, but it does not have to be that way - you may allow a jumper to jump out of turn if they have other events to compete in. When all have finished, figure top six places and turn in to awards clerk in press box.
- D. ***High Jump** - three workers (one clerk; two bar-holders). Clerk has contestants check in and goes over jumping order, puts cross-bar on a reasonable height, gives each contestant three jumps at each height until no contestant can clear the bar, figures top six places and turns in to awards clerk in press box.
- E. ***Pole Vault** - same as high jump

**In figuring places in shot, discus, and long jump - further distance wins. In case of ties, second best throw determines winner. In figuring places in high jump and pole vault, highest wins. In case of ties, number of previous misses at lower heights determines winner. All rules should be read over according to NCAA Rule Book and the meet director should make any final decisions on scoring or interpretation.*

- VI. By having the meet well organized and the workers organized knowing their responsibilities, a middle school track meet will run smoothly and the contestants, coaches, and parents will all leave with a good feeling about the contest. Remember to always keep the best interest of the runners in mind when running off the meet. Never try to punish a runner by trying to hurry the meet just to get it over with. However, do not drag the meet out because of inefficiency. Set a fair schedule and try to stick with it.

***MEET OFFICIALS

Remember that even though an infraction may occur, this may not be grounds for disqualification of an individual or team. Always ask yourself, "Did this infraction give an athlete an advantage that resulted in a change in the final finish order?" For example, a runner coming out of the last turn runs out of his lane but does not impair another runner and returns to his lane after several strides. Has this runner gained an advantage? No, he has actually run farther by not running in a straight line.

Few middle school/junior high meets have a sufficient number of officials to judge the events properly. We must all work cooperatively. When asked to assist at a meet, please try to comply.
