

# 2018 Bond Planning Committee

**Mission Statement:** The mission of BISD is to ensure that all students position themselves to excel with integrity in an ever-changing global society through innovative and responsive learning environments.

---

On behalf of BISD's Board of Trustees, I want to thank you for serving on the 2018 Bond Planning Committee. I know the Board and Administration have asked you to dedicate a significant amount of your time and energy to attend Committee meetings, as well as reviewing mounds of data outside these meetings. The sacrifice you are making is greatly appreciated.

The Committee has the opportunity to continue the great work begun by the 2014 Bond Planning Committee. Many of you served on that Committee in 2014, but there are new members of our community that are joining you in your work for the 2018 Bond.

Over the course of the Committee meetings, you will have the opportunity to learn more about public education than you ever knew. We will take you on a journey through facts, figures and facilities that will result in your careful deliberation on potential projects to be included in your bond referendum proposal to the Board of Trustees. The work ahead may be difficult, but we hope the fruits of your labor will allow Birdville ISD to continue moving forward for decades to come.

The Board asks you to keep an open mind as you reflect upon the information provided in the presentations, with the ultimate goal of doing what is best for all students.

Dr. Brown, the Cabinet and members of the Administration are here to answer your questions and provide the data necessary for you to make the best decisions possible for the Birdville community.

Please accept my sincere thanks, and that of your Board of Trustees, for your willingness to be a part of this critical facilities planning process for Birdville ISD.

**Joe Tolbert**

President, Board of Trustees  
Birdville ISD
