

Accessing your child's immunization record from Skyward.

- Log-in to Skyward Family Access from your school's web page. This works best on a desktop or laptop computer.
- At the top of the page Under "Family Access", choose whose record you want to view (if you have more than one student in the district).

- On the menu on the left side, click on "Health Info"

- Under the heading "Health Information" click "Display Options"

- Choose “Show Vaccinations”

- Your student’s current shot record will be displayed.

 A screenshot of the 'Vaccinations' section in the Health Information menu. It shows a table with two columns: 'Vaccination' and 'Compliance'.

Vaccination	Compliance
Dip, Tet, Pert	In Compliance
Hepatitis A	In Compliance
Hepatitis B	In Compliance
HIB	In Compliance <i>Student is not within the Required Age Vaccination.</i>
Meningococcal	In Compliance
Measles	In Compliance
Mumps	In Compliance

- If a student is out of compliance, this will show up in red. These are the immunizations your child needs.

To Print: Click on the printer icon.

The copy you print will be a much better view of the shot records than the version the nurse can print for you.
