# WHEN WE WERE YOUNG

- Think back to some of the decisions you made..  
Were there **any** you would change?
  - For **Example**: How hard you worked in school, white lies you told, friends you had, etc...
  - Why do we make so many more poor decisions while we are young????
    - Answer: Our BRAIN– Specifically, **Frontal Lobe Development**

# INTERNET SAFETY

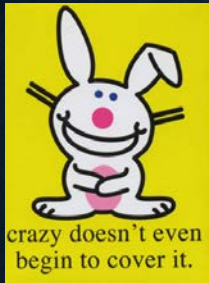

- Frontal Lobe Development

- The function of the frontal lobe involves the ability to project future **consequences** resulting from **current** actions, the choice between good and bad decisions (also known as one's conscience),
  - Most experts believe frontal lob **NOT** fully developed until 20 in females and 25 for males. This is why **Great** kids make **poor** choices..
    - Stories: **YOLO** (You Only Live Once) cheerleader story, cyber bully, video games all night, Ms. Cox
    - IT **can** happen to **ANYONE**- character of child, the relationship you have with your child, etc. (50/50 Nature vs. Nurture)
      - My mom-Barbara Balzer- I still made bad choices, lied, sneaky while I was young.

# HMS ADMINISTRATION RECOMMENDATION

- **ONLY** allow cell phone to be able to make phone calls (no texting or internet capability)

- No One can monitor your child's entire internet activity on their phone or tablet when you are NOT physically with them (even then if you can't see their screen you really don't know)

**OR** (if you are like my secretary 😊)

- **MONITOR** like *Crazy*- App that allows turn phone on and off (limit numbers of hours, lock it, monitor apps)
  - **Apps** that allow you to monitor (ex. Samsung family link- shows you what apps child has been on and for how long, location, Life 360- free app )
  - **Know** all passwords (and remember about your child's ability to create new social media accounts without your knowledge (Snapchat, Instagram, etc.)
- **REMEMBER**: Peer pressure is more influential than parents, educators, clergy, etc. during the middle school years.

**THIS IS WHY YOU **MUST** **LIMIT**  
ACCESS TO INTERNET**

****TOO EASY TO ACCESS:** SOCIAL  
MEDIA, TEXTING, PORNOGRAPHY,  
VIOLENCE**

**DON'T **FORGET** ABOUT NATURAL  
CURIOSITY**

# DAVID'S LAW

- **New** state law that went into effect in Summer of 2017.
- Allows schools to discipline students for off campus incidents involving **cyberbullying**.
- **Allows** law enforcements to prosecute for cyberbullying. Penal Code 42.07
