

How do I get my Apple device (handheld, desktop, laptop) repaired?

Many of the Apple devices are currently under a manufacturer warranty.

Do **NOT** try to repair the device yourself or you will void the warranty.

The device must be taken to an Apple Store for repairs.

You can either open an incident with our ticketing system for our technician to pickup the device or you can take the device to the Apple Store yourself.

The two Apple Stores closest to Birdville ISD are....

FORT WORTH – University Park <http://www.apple.com/retail/universityparkvillage/>

SOUTHLAKE – Southlake Town Square <http://www.apple.com/retail/southlaketownsquare/>
