

How do I check my voicemail when I'm out of the district or away from desk phone?

When calling from a phone other than your own inside the district, dial **5500**, then * when the voicemail answers.

When calling from a phone outside the district, dial **817-547-5500**, then * when the voicemail answers.

In either case, voicemail will prompt you to enter your **ID** (which is your 4 digit extension) and your **password** to retrieve your voicemail.
