

PARENTS' RIGHT TO KNOW PUBLIC NOTICE

According to Every Student Succeeds Act, all parents have the right to know the professional qualifications of their child's teachers. Professional qualifications include whether the teacher is certified in the grade level or subject they are teaching, the baccalaureate degree they hold, and the field of discipline of their degree or certification. Birdville ISD prides itself on hiring qualified individuals who will do whatever it takes to ensure learning for each student. If you wish to know any information regarding the professional qualifications of your child's teacher, please make a written request to the principal.
