

# Project Innovate

## Birdville ISD Digital Learning

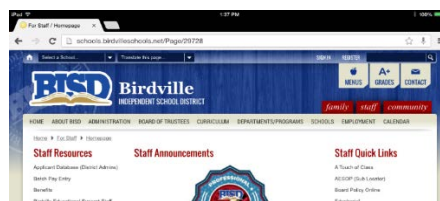

## Eduphoria

**Eduphoria** works best on a desktop computer but there are a few applications within **Eduphoria** that will work on an iPad. Begin by accessing the Chrome browser, a Free App in the iTunes App Store.

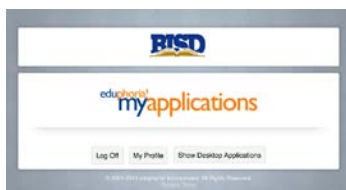

Search for Birdville ISD and open the Eduphoria link from the Staff Resources page. When accessing the Birdville website on the iPad, always hold your iPad in landscape mode, this will allow all of the tabs to be seen.

Login to Eduphoria.

Tap Show Desktop Applications

Content can be viewed in applications on the iPad. When in Forethought, scrolling could be challenging but works best when using the Chrome browser.
