School Processes & Programs

School Processes & Programs Summary

At Spicer we provide Special Education through our Resource/Inclusion programs and our PPCD and our two SEEC self-contained programs. Struggling students are addressed through our special support provided by our Math and Reading interventionists. Our ELL students are supported in their classrooms as well as pull out from our ESL interventionist. In addition, we have a Science and two Reading support staff that work with our Tier 3 students and support our teachers in the classroom. Our campus has an after school program (Aspire) that supports our Tier 3 students and their families within the community through community events and student sports events.

For our gifted and talented students, we provide a variety of leveled services for students in grades kindergarten through 5th grade. All teachers are required to complete annual GT training and our GT students are clustered in specific classes. Pull out classes are offered to our students on our campus and at a separate location where our 3rd, 4th and 5th graders travel one day each week.

Our teachers attend professional development provided by our district where we focus on Framing Literacy. Teachers are provided expectations for learning and engaging our learners in a campus culture of writing and reading. Teachers are provided support through training and weekly staff walk throughs that provide teachers productive feedback. Weekly PLCs, vertical team meetings and Leaders of Learners ensure all staff are trained in district initiatives.

We offer incentives for our students who have perfect attendance. Students are recognized at school assemblies for good grades, good attendance and good behavior. Our students are supported emotionally through programs offered such as: Red Ribbon week, Second Step classroom lessons, Safe Haven lessons, Place it safe lessons and daily use of our district core values.

Technology is integrated in classrooms as teachers use interactive white boards, online Reading resources, ipads, laptops, chrome books, google classroom, and an internet based (REMIND) program to communicate with their parents.

School Processes & Programs Strengths

Spicer serves a diverse population that is reflective of our community. Parents are involved in school opportunities where teachers work together to support individual needs of our families and students.

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1: Language barrier due to our variety of languages our students bring to our campus **Root Cause:** Families that speak other language and come from other countries.

Perceptions

Perceptions Summary

Our school's mission statement that was created by our staff for the 2018-19 school year is: "Together we can shape tomorrow's leaders by collaborating with students, parents, and teachers in order to support the whole child."

At Spicer, we have a belief that all of our students have an opportunity to show their culture and experience how we value education. One example- At the Discover Birdville Event last year, Spicer 5th grade students were able to showcase their learning through field investigations as they studied the circulatory system. These students demonstrated their learning to the community using technology and visual examples, that our diverse population has many opportunities to explore and apply their rigorous curriculum.

Twice a year, we offer two multicultural events. The first event is a dinner for our African community. We invite parents to bring a dish to share as we bridge both cultures by explaining our school expectations and answering any questions our parents have. We invite a French interpreter to ensure the parents understand. The second event is a multicultural lunch that we call "Christmas around the world", where each student brings a dish from their home country to share with students, staff and parents.

Positive behavioral supports/strategies are utilized in the classrooms and also implemented by administration to address student behavior in a positive manner. Individual student incentives are utilized and set up for specific students who need more one on one support from administration.

Spicer has a social committee that provides emotional support to our staff. We also have a faculty advisory council that address a variety of campus problems.

Perceptions Strengths

Our diverse population bring richness to our school by providing a depth of individual difference from our students and families.
