### **2005 Bond (continued):**

- Voters rejected \$174.685 million in bonds
  - \$147.255 million for the construction of new core facilities and additions, and renovations to current facilities not affected by new construction. Proposition I would combine six of the district's smallest elementary campuses into three. Each new campus will accommodate approximately 700 students. The proposed combined campuses are:
    - ♦ South Birdville and Birdville;
    - ♦ W.T. Francisco and David E. Smith; and
    - ♦ Alliene Mullendore and Snow Heights.
  - ♦ Replacement of Jack C. Binion and O.H. Stowe elementaries, Haltom Middle School and Richland High School.
    - \$27.43 million for upgrades and additions to the district's fine arts and athletics facilities. Proposition III includes expanding and/or renovating band halls, choir rooms, art facilities and theaters. In addition, it provides running tracks at middle schools, lighting and restrooms at the high school competition (football) fields, indoor activity centers at the three high schools, and artificial turf at Birdville Stadium.

### **2006 Bond:**

- Voters approved \$128.6 million in bonds
  - Building replacement campuses at Stowe and Binion elementaries;
  - Renovating and expanding locker rooms and adding four-lane tracks at each of the district's seven middle schools;
  - Renovating and expanding Haltom High School;
  - Building a replacement campus at Richland High School; and
  - Building a new Career and Technology Center.

### **2013 Bond:**

- Voters rejected \$183.2 million in bonds
  - Eliminating more than 65 portable classrooms across the district;
  - Consolidating four of the oldest and smallest elementary schools into two new schools (Birdville and Richland elementary schools, and Francisco and Smith elementary schools), which would have saved approximately \$15 million in operating costs over the next 10 years;
  - Major renovations such as replacing aging roofs, HVAC, electrical and plumbing upgrades, as well as adding energy management systems that will result in significant savings;
  - Replacing facilities that are between 50 years old and 65 years old (North Richland Middle School, the Academy at West Birdville Elementary and Smithfield Elementary School) with modern facilities that require less money to operate and maintain;
  - New computers and mobile devices, Internet connectivity for wireless devices, and student access to technology used in the classroom;
  - Adding safety and security measures throughout the district;
  - New or upgraded science labs throughout the district; and
  - Relocating the Horticulture and Animal Science program from Richland High School to the Birdville Center of Technology and Advanced Learning to serve students from all three district high schools.
