**It's NOT about the device...  
it's about teaching  
and learning differently.**

# Start with the End in Mind...

***What do you want the students to learn?***

*Don't ask can you recommend an app for subtraction or for my science class, or for letter practice; instead, evaluate apps based on the value they add to the learner, the curriculum, and the potential to bring new understanding or transform a lesson.*

- Evaluation Rubric for iPad/iPod Apps

# Improving Literacy with iPod Touch

<http://www.apple.com/education/profiles/escondido/#video-escondido>

*Use a Voice Recorder to improve fluency and comprehension.*

**“In a six-week period, students’ reading fluency increased at six times the rate considered normal for that time period. After six month, students gained almost two years of reading comprehension.”**
